Get involved in this brand new asset class. Reap the rewards of investing early. Minimum investment of R1. (that's not a typo).

—
**A transformative plant.
We exist to unlock its value.**

Forbes (2022) -

'U.S. Cannabis sales could top \$72 billion by 2030, says leading researcher'

Mail & Guardian (2022) -

'Bricks and biofuels: Cannabis can grow South Africa'

SilverLeaf Investments is the first of its kind South African-based cannabis fund.

**We're shifting the narrative on the cannabis
and hemp industries.**

In such fast changing and fast growing industries globally, people have various degrees of knowledge and understanding about cannabis and hemp. We challenge what you think you know about cannabis and hemp and its investment potential. We're here to share the right information with you – whether you decide to invest or not.

Invest early into this ecosystem with us

> \$80-100 billion
global legal market forecast by 2030

> 30 countries
have legalized cannabis & more are following

Multiple benefits
for the economy, ESG and the planet

Your investment

Invest for as little as

R1

In partnership with Easy Equities, South Africa's premier and leading online share purchasing and trading website, our fund now enables investors to make small to large size investments into this growing category, starting from as little as R1.

 **EasyEquities**

Our promise

Consider us your cannabis investment partners

Whether you know a little, nothing or consider yourself an expert, we will guide you on the investment journey into this exciting industry.

Our focus

US

We're focused on South Africa's rapidly growing commercial cannabis and hemp industry.

- We're uniquely positioned in our whole-of-industry perspective. To realise the greatest value from this asset class, we believe that, as a fund, we need to take a broad and deep perspective of the entire cannabis and hemp ecosystem and value chains. Too often investments focus only on the producer, which we feel is too risky.

We are the first cannabis fund in South Africa.

— Our vision

To chart a new course takes vision, courage and a strong dose of confidence. We look to key markets around the world as cannabis has been legalised, and we're encouraged by the explosive industry growth.

We exist to unlock the value of this transformative plant. Our long-term vision is for SilverLeaf Investments to be recognised as a leading investment fund in the cannabis and hemp industry, providing significant returns for our investors.

Have a read through our Prospectus for more details on financial targets.

Our mission

How we'll get there

- We'll rewrite everything you've been told about this plant and shift attitudes and behaviours that exist around cannabis.
- We'll invest those funds wisely in businesses with significant potential for growth.
- We'll enter partnerships and develop networks to assist the shaping of the industry.
- We'll walk the road with each of our investment businesses and help drive their success.
- We'll be a significant player in creating economic benefit through job creation, skills development, and meaningful contribution to the South African fiscus

Your next steps

- Read the prospectus on our website
- Download the Easy Equities app
- Get investing

If you've got any questions, please reach out to our team. Visit our website to read more about our fund, investment ethos and team. We look forward to investing alongside you into this sunrise industry.
